Functional

## Professional Gray

● Gray

Professional Gray is an attractive resin that has high detail surface as a material optimized for printing figures and jewelry models, and it has both mattiness and luster depending on the viewing angle. It can be used to print hard prints that do not bend easily. This resin is relatively fast printing speed and has a high surface quality, especially when printing with 25μm slicing.

### Properties

Tensile Strength :	55 MPa
Young's Modulus :	1700 MPa
Elongation at Break :	4 %
Shore Hardness :	82 D
Viscosity :	180 cP
