

# Materials Technical Data Sheet

General Purpose / Functional / Engineering  
Jewelry / Ceramic / **Dental Resins**

## Dental Model

● Yellow ● Gray

Dental Model is a material with high detail surface and precision based on excellent durability. It has excellent repeatability and is excellent for making precise dental models.

### Properties

Tensile Strength :	67 MPa
Young's Modulus :	1400 MPa
Elongation at Break :	10 %
Shore Hardness :	80 D
Viscosity :	200-220 cP

Model

Dental Model
