

Materials Technical Data Sheet

General Purpose / Functional / Engineering
Jewelry / Ceramic / **Dental Resins**

Dental

C&B (Crown&Bridge)

C&B has a high strength comparable to that of permanent teeth based on excellent flexural strength and can be used as temporary teeth for up to 30 days

Properties

Tensile Strength :	110 MPa
Young's Modulus :	4000 MPa
Elongation at Break :	10 %
Shore Hardness :	80-90 Shore D
Viscosity :	2000-3000 cP
