

CLEANI with Tank^{Plus}

High-Volume Washer for Dental 3D Printing

Ideal for High-Volume Production

Thanks to its high capacity and fast washing cycle, Tank Plus makes CLEANI ideal for demanding digital dentistry workflows, accommodating 8 full arches efficiently.

Made to Match Our New 3D Printing Solution Plus

With Tank Plus, our alcohol washer becomes the perfect fit for our new 3D Printing Solution Plus - wash up to 8 full-arch applications in one go to match the high production that SOL Plus and CURIE Plus deliver perfectly.

Enjoy a Short 5-Min Wash Cycle

Complete an entire washing cycle in just 5 minutes. With Tank Plus, enjoy the advantage of swiftly washing high-volume 3D printed applications in record time.

CLEANI with Dual Tanks

Dual Tank Washer for Dental 3D Printing

Perfect for Biocompatible Workflows - Up to 4 Full-Arches at Once

The versatile two-stage cleaning process guarantees a safe and hygienic wash for your 3D-printed applications, such as crowns, bridges, splints, surgical guides, denture bases, teeth, and models, among many others. It is ideal for both biocompatible and non-biocompatible rigorous workflows.

2-in-1: Clean Both Your Build Platform and Applications

Save time and up to 50% alcohol consumption with Dual Tanks. Accommodate a wide range of build platforms with the 3D prints still attached for a simultaneous wash process.

6 Minutes, 2 Cycles

Remove up to 90% of excess resin during the **dirty wash** and employ the second tank for a **clean wash** ensuring the removal of all remaining resin particles.

A Seamless Move from Printer to Washer

CLEANI with Dual Tanks & CLEANI with Tank Plus

Perfectly Sized for
Dental Practices
